3/1/98

Dear Clay,

I'm deep into a manuscript on ZR Rifle but the end of the month has come so herewith the Donahue ms. There is a short addition, the story from the Balt. Sun on the settlement. I've asked Lesar for the date of the story of of the settlement to add and should have that before long.

I'll read and correct Hersh-It as soon as possible because while I have no notion of any interest, I believe there could be and would like it available.

I hope these corrections in Donahue do not take much time. I do, very much, appreciate the time you have put on this and what it means. Many thanks!

When the time comes the corrections in Walt Brown ms. (corrections in him are not likely!) are ready.

Again, many thanks!

Harold
